I have an iframe on my page that loads the contents of an external application. I need to create a new entry in the history for the current page. How do I do this? A: This uses jQuery (you will need to link to jQuery on your page) $(document).ready(function() { $("#iframe").load(function() { location.href = this.src + " #iframe"; }); }); Q: Spring MVC @ResponseBody Not Working I am trying to use the @ResponseBody annotation in a spring MVC web application. I have configured it as such @Controller public class TestController { @RequestMapping(value = "/test.htm", method = RequestMethod.GET) @ResponseBody public String test(String a) { return "test"; 82157476af
